## DETAILED ACTION

### *Claim Objections*

Claim 4 is objected to because of the following informality: Line 6 appears to include a typographical error. Note the recitation "a accessory supports". Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(c) he has abandoned the invention.

(d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filed more than twelve months before the filing of the application in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 3636

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

(f) he did not himself invent the subject matter sought to be patented.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Grove (6648408). Note the side seat cushion (44), side seat cushion support frame (46), side seat support (52), mounting means (62), the side seat cushion extending laterally from the motorcycle passenger seat (see Figure 1).

Claim 2 is rejected under 35 U.S.C. 102(e) as being anticipated by Grove (6648408). Note the side seat cushion (44), side seat cushion support frame (46), side seat support (one of 62), mounting means (62 on the opposite side), fastening means

(74, 58, 60), and the side seat cushion extending laterally from the motorcycle passenger seat (see Figure 1).

Claims 3 and 5 are rejected under 35 U.S.C. 102(a) as being anticipated by Goin (6481792). Note the accessory (22), pair of seat cushions (34, 34), seat cushion support frame (32), seat cushion support (60), mounting means (52), accessory support (46), flanges (56a and area between the slots 57).

#### ***Allowable Subject Matter***

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Response to Amendment/Arguments***

Applicant's response has been fully considered. Remaining issues are outlined in the above sections. Newly discovered prior art has been applied against the claims. Discovery of this prior art has necessitated withdrawal of the previous indication of allowable subject matter in claim 5. Applicant's arguments regarding application of Welsh (20020069464) to the claims are now moot.

#### ***Conclusion***

This office action has not been made final since it includes a new grounds of rejection not necessitated by Applicant's amendment.
